DEPENDS ON ADMIRAL TOGO

Supremacy of Eastern Sea
May Soon Hang in
Balance.

Rojestvensky is Apparently
Quietly Waiting for Neboga-
toff's Arrival.

London, April 20.—The British public is only now beginning to realize how much depends on Togo's skillful conduct of the approaching naval conflict. Until Vice Admiral Rojestvensky actually arrived in the straits of Malacca there was a disposition to ridicule the efforts of the Russian squadron; but now that there is seen to be a growing likelihood of Vice Admiral Nebogatoff joining Rojestvensky before the fateful struggle opens lukewarm interest is deepening into anxiety. According to the Tokio correspondent of a news agency a momentous war conference lasting five hours was held there on Wednesday, attended by the elder statesmen, the premier and ministers. It is not difficult to conjecture the nature of the council's deliberations.

Tokio correspondents state that Japan has addressed a protest to France on the Russian Pacific squadron's presence in Kamranh bay, but that France has not yet replied. One correspondent at Tokio declares that a Japanese fleet is ready to sail for Kamranh bay. A Hong Kong correspondent states that no Russian vessels were then visible. No news, however, has yet reached London to show that the Russians have left Kamranh bay, and it is assumed that they are still there.

The Morning Post, commenting on the situation, contends that it is a matter of urgent importance, especially considering Great Britain's worldwide naval interests, to endeavor to secure a more definite international agreement on the question of neutrality, of the use of neutral waters by belligerents.

THE FEAST OF THE PASSOVER

Is Being Observed by Our Jew-
ish Citizens With a
Celebration.

The Jewish feast of the Passover, the greatest celebration in the Hebrew church, commemorating the deliverance of the children of Israel from the smiting hand of the angel of death as he passed over the land of Egypt began at 6 o'clock last evening and will continue eight days, ending at 6 p. m. on Thursday of next week. This is the feast of "matza," the unleavened bread. The first two and last two days of the feast will be observed with special services in the households of Jewish families, the old customs being most strictly adhered to by the orthodox Jews. The progressive Jews, while taking notice of the feast are less rigid in its observance.

Each evening Jewish families will gather around their tables with several symbols before them—unleavened bread, symbolical of the deliverance of the children of Israel from Egypt; bitter herbs, symbolical of the severe sufferings the Israelites endured while they were slaves in Egypt; a lamb bone, symbolical of the paschal lamb sacrificed in the ancient temple the afternoon preceding the festival of unleavened bread, which in turn commemorated the saving of the lives of the first born Israelites when the first born of the Egyptians were slain; and an egg, symbolical of the usual festival sacrifice. Usually the head of the family narrates the principal events connected with the exodus from Egypt and the recital is interspersed with psalms and hymns of praise and thanksgiving.

PER CAPITA CIRCULATION

Total Money in Circulation on
April 1, Was \$2,558,982.983 or
\$30.86 per Capita.

The total money in circulation on April 1, according to the statement made on that date by the bureau of loans and currency, was \$2,558,982,983, as against \$2,516,639,223 one year ago and \$2,560,514,712 one month ago. The total amount in the treasury on April 1 as assets of the government was \$283,914,423, as against \$268,322,615 on March 1. The per capita circulation of money in the United States is now estimated at \$30.86.

NO EXCURSIONS ON SUNDAY

That is the Announcement
Made by the Lake Erie and
Western.

It is announced that there will be no Sunday excursions on the Lake Erie & Western railroad this summer. This is the decree handed down after a conference of the officials of the company held at New York. The decision is said to be final. If such is the fact, it will cut out the Sunday excursions this year over that road from this city to Sandusky, which proved so popular last summer. It is believed that before the summer is very far advanced the Lake Erie will change its present intention and be running Sunday excursions to Sandusky. It probably will not be content to see other roads hauling in the coin without getting its hands in the money pots.

A LONG BRIDGE ON THE C. H. & D.

New Structure Spanning Silver
Creek East of Liberty is 624
Feet Long.

The Connersville Courier in speaking of the new C. H. & D. bridge, east of Liberty, says: The new C. H. & D. bridge spanning Silver Creek, a mile west of Liberty, is an undertaking of great magnitude. A staff correspondent of the Indianapolis News, writing from there, says it will be 624 feet long and almost a hundred feet from the base of the piers to the rails. It will have six spans thirty-one feet in length; one span seventy-eight feet long and weighing fifty tons; one span forty-five feet long and five spans sixty-two feet long, making a total of thirteen spans. The stone bases have just been completed by I. D. Tuttle, a railroad contractor. The McClintock Marshall Construction company of Pittsburg, is doing the steel construction work and now has a force of fifty men at work on the job.

In a little house on the banks of Silver creek there will be a telegraph station connected with the railroad stations on either side of the big viaduct. The same wire will connect with the office of the train dispatcher in Connersville. By the use of the wires the trainmen will run their trains and Supt Wolford will build his bridge.

Piece by piece the old bridge will be torn away. As each section of the old bridge disappears, a new steel section will take its place. Wolford will build false work of heavy timber under the tracks the whole distance to support the new steel work until it is perfected. In that way he can keep trains going.

Silver creek viaduct is one of the longest and highest in Indiana. It connects two hills that form the walls of the Silver creek valley.

VENTILATION IS VERY BAD

In the Public Schools in all
Parts of the State of
Indiana.

Inspector McAbee Says That
Many School Buildings
Should be Rebuilt.

Need of proper ventilation has become so great in many of the factories, school houses and other buildings where many people are forced to spend much of their time, that it is causing no small amount of concern to State Factory Inspector McAbee.

He has been conducting an investigation throughout the State for the last few weeks, and has decided that something must be done to relieve the alarming conditions. He points out that the question of poor ventilation is seldom an important one in the summer months, and he will take advantage of the opportunity to formulate plans to relieve the situation.

For the most part factories are well ventilated, because of the fact that strictly speaking they are seldom built air tight. However, the great buildings erected in the larger cities, where a number of small manufacturing establishments may locate are being built in such a manner that the question of ventilation becomes as fully alarming there as it does in the printing establishments, school rooms, etc.

During his course of investigation of factories over the State, Mr. McAbee was asked by a number of public school principals to look into the matter of ventilation in their school buildings. In one city he found the presence of twenty-nine parts of carbonic gas when there should be not more than five parts in every 10,000. Outdoor air has only three parts of the gas present. Many other school rooms, factories, etc., were found to have seventeen parts of the deadly gas present, while from twelve to fifteen parts of rebreathed atmosphere were almost invariably found. Properly ventilated rooms are so arranged that air changes seven times every hour.

Mr. McAbee says: "Many of the buildings are not built with a view to ventilation, while the janitor unwittingly plays the part of the heavy villain in many instances. In one of the schools where the conditions were found exceedingly bad, I found the ventilators all turned off. The principal informed him that the janitor had done this and forbid anyone to touch them. He evidently preferred to see the building full of foul air rather than build fires."

Mr. McAbee's investigations are conducted in a unique way. It is well known by every student of chemistry that the presence of carbonic acid gas in clear lime water will form a heavy white precipitate.

The factory inspector carried a quantity of the solution with him, and by taking a quantity of air from a room can tell how much carbonic gas is present by the amount of air necessary to pass through the lime water before all the precipitate is formed.

Mr. McAbee has a plan under consideration which he believes will remedy the evil of poor ventilation without causing a heavy draught. This method is to form a sheetiron casing about the steam heaters of a building in such a way that the air is heated before it reaches the occupants of the room.

Help Wanted.

GOOD ADVICE

Richmond Paper Has Something
to Say About Cheap Cloth-
ing Fakirs.

The recent canvass for the sale of ready made clothing among the farmers of this county is generally regarded as the work of very sleek sort of fakirs. The success they met with in "roping in" the people, should be a warning against biting at such things. It were better to go to a home merchant whom you know and whom you see again if your purchase proves a fraud. It is well to be suspicious if the man who offers something for nothing or far below cost, unless you know exactly what you are getting. These fellows are not going over the country for their health, that is dead sure.—Richmond Sun-Telegram.

Rush county suffered a visitation from the same set of peddlers.

ARE COMING TO RUSHVILLE

But They are Not Wanted and
They Should be Driven
Out.

The Shelbyville Republican of Wednesday says: "The order issued by the council Monday night instructing the police to notify the owners of houses of a questionable character to have their inmates leave the city by 6 o'clock Tuesday night, was obeyed, according to information received. One of the officers last night stated that they visited seven houses which contained thirteen women, and that they gave instructions to these women. The girls went in all directions yesterday, some going to Columbus, others to Greensburg, still some to Rushville, while the majority were headed for Indianapolis."

BROKERAGE CO. GETS JUDGEMENT

Mortgages on Obediah F. Bow-
man's Canning Plant to be
Foreclosed.

In the circuit court today the case of the Western Brokerage Co. et al., vs. Obediah F. Bowman, proprietor of the Carthage canning factory, a suit to foreclose a mortgage occupied the attention of special judge L. L. Broadus, of Connersville. The Brokerage company held a first mortgage on the factory for \$4000; the Knight & Jilson company, of Indianapolis, held a mechanic's lien amounting to \$24.71, and R. H. Hill and others held a second mortgage on the factory for \$10,221. Judgment was rendered in favor of the plaintiffs. The mechanic's lien held by the Knight & Jilson Co. was given in return for some repairs made by them upon the boilers at the plant. The case occupied about two hours.

No Cause Assigned.
Elwood, Ind., April 20.—Max Behrman, nineteen years old, stepped into Sive's pawnshop and, taking a revolver, fired a bullet through his brain, dying instantly. No cause can be assigned. He was a brother-in-law of the proprietor of the place.

Patient Went to His Death.
South Bend, Ind., April 20.—Joseph Casey, thirty-three years old, afflicted with walking typhoid fever, escaped from his boarding house while delirious, and his mangled body was found on the Lake Shore railway tracks.

Work Resumed.
Bicknell, Ind., April 20.—The trouble at the Lynn coal mine, which began two months ago because the company, as alleged, refused to recognize the union and discharged some men who were active, has been compromised. The discharged men have been reinstated and work has been resumed.

THEY WANT A WAY OUT

First District Republicans
May Settle on a "Dark
Horse."

Senator Hemenway is Enroute
from Washington to Pour Oil
on Troubled Waters.

Evansville, Ind., April 20.—It is reported that an effort will be made to patch up the differences between the Cunningham and Brady Republican factions in the First congressional district. Senator Hemenway is en route from Washington, and will use his influence toward peace. Brady and his managers are in the city.

Sentiment is growing for a dark horse in the race, and Judge John H. Foster of the Vanderburg superior court is the only man mentioned. His name was used early in the winter before it was known definitely who the candidates for congress would be, and he was a receptive candidate. Now that the district convention is divided, use of his name is becoming general, and the friends of both forces desirous of seeing an early solution of the factional differences are discussing Judge Foster's fitness. It is generally felt that between now and Saturday events should shape themselves to permit his nomination unanimously.

TO BE DECLARED A BANKRUPT

Ira Allentharp, of Arlington,
Files Petition in U. S. Dis-
trict Court.

Ira Allentharp, who for the past six years has conducted a general store at Arlington, yesterday afternoon through his attorneys, Stevens & Nipp, of this city, filed a petition with A. B. Anderson in the United States District court, to be declared a bankrupt. His liabilities amount to a little over \$6400 with the assets slightly exceeding \$4000. A notice will be given Mr. Allentharp's creditors and the matter will soon come before H. C. Hunt, of New Castle, referee, in bankruptcy. A called meeting of the creditors is to be held in this city soon.

Mr. Allentharp claims that for several months he has been harassed by his creditors, and but for the judgments rendered against him in the circuit court during the last few months, which he says were not necessary, he could have paid out if the creditors had but given him a little more time. The judgments, he says, were the direct cause of his failure. Another cause, is the removal of the Arlington trade to Rushville since the advent of the traction line.

Mr. Allentharp had a stock of groceries, clothing and notions worth about \$6000 and which was one of the finest and most complete of any of the Arlington stores. The store was closed this morning. The stock will be inventoried as soon as a trustee is appointed.

Mr. Allentharp had bright prospects as a merchant. Those who have dealt with him, it is said, recognized his efforts to meet all obligations. He is a man of family, having a wife and three children. He went into business at the close of the Spanish-American war. The heaviest losers in the failure are Mr. Allentharp's mother, Elihu Price, of Posey township, and the Wayne Shoe company, of Ft. Wayne, Ind.

Receivers Appointed.
Boston, April 20.—Judge Francis C. Lowell in the United States district court has appointed Hugh W. Ogden and Attorney Jeremiah Smith, jr., receivers for the Boston Ubero company. The petitioners were members of the committee recently appointed by the stockholders to investigate the affairs of the Ubero Plantation company.

WORK ON ROADS

Much Work is Going on Over the
State Especially on the Im-
proved Highways.

Considerable work is now being done in the State on the roads. The men appointed to look after the gravel roads have been especially industrious and the roads are being placed in good condition for the summer.

As a general thing the road supervisors have not begun the work on dirt roads as the farmers are not yet ready to spare the time to work out their taxes. They are permitted to take the forty days as they see fit, part of the time in the spring and part of the time in fall.

LARGE AUDIENCE GREET'S M'CLARY

Last Lecture of the Course
Given at St. Paul's M.
E. Church.

The gentlemen who have had the management of this season's lecture course in charge are to be congratulated and we are glad to know that they will also have charge of next season's course; for the entertainments they have furnished has been in every sense of the word first class.

The last of the course was a lecture given last night at St. Paul's M. E. church by Thomas McClary, the well known lecturer from Minneapolis, Minn. He dealt with his subject, "The Mission of the Mirthful Nature," in a most skillful manner. He so artfully intermingled plain truths and sound arguments with delightful wit and humor that he commanded the very best of attention from his large audience throughout the entire evening. Mr. McClary is possessed with remarkable tact in presenting plain truths in a unique, entertaining and impressive manner. As a humorist he is splendid and as a keen, broad-minded thinker he is hard to excel.

TWO LICENSES UNDER NEW LAW

Couples Have no Difficulty in
Obtaining Them—Wedding
in Clerk's Office.

County Clerk Posey and Deputy Clerk Will McColgin have issued two marriage licenses under the new law. The first couple to apply for a license was Emerson Wilson and Miss Mary Elliott, who obtained a license yesterday evening. They had no difficulty in filling out the blanks a white one for the gentleman and a pink one for the lady. They were married at the home of Mr. and Mrs. Alfred Swain. They will reside at Spiceland.

The second couple to apply, Harrison Symons and Katie Wood, came all the way from Milroy. They had no trouble in fulfilling the requirements of the new law and received their license about ten o'clock this morning. They decided to have the knot tied then and there. Squire Jackson was summoned to the clerk's office and pronounced the necessary words in the presence of Smith Carney, George Conrad, a few court house officials and a couple who had accompanied the bride and groom to this city in order to certify to their eligibility.

NEW LAW ON AUTOMOBILES

Its Provisions, Limitations
and Punishments For its
Violations.

Must Signal Before Passing
Horses and Must Get an Au-
tomobile License.

The Motor Vehicle act of the last legislature, now in force, limits the speed at which automobiles may be run to eight miles per hour in the business and closely built up portions of any city of the State, fifteen miles in other portions of such cities and twenty miles an hour outside of such cities.

Automobiles must be provided with good and efficient brakes, a suitable bell, honor other signal and persons operating them shall upon approaching persons riding, leading or driving a horse upon a public highway, signal such persons and give them a reasonable time to prepare for the passing of the automobile.

Any person operating an automobile upon meeting any one riding, leading or driving a horse upon a public highway, upon request or signal by any such person putting up the hand from any such person so riding, immediately bring his automobile to a stop and remain stationary a reasonable length of time to allow such horse to pass; and upon overtaking such person the operator of any motor vehicle when signaled as above provided shall reduce the speed of his automobile and before passing shall allow a reasonable time for such animal to be driven to one side of the road. The driver of any horse shall upon meeting an automobile, drive to the right so as to give said automobile one-half of the traveled portion of the road.

Every owner of an automobile is required to file with the Secretary of State a statement, giving his name and address, with a description of the vehicle to be registered on a blank furnished by said secretary. The filing fee is one dollar, and the Secretary shall forthwith deliver to the owner of such vehicle a seal of aluminum or other suitable metal, circular in form and two inches in diameter, stamped with the words "Registered in the office of the secretary of State of Indiana under the motor vehicle law, No. —," with the registration number inserted therein, which seal shall be at all times displayed on the automobile.

Every automobile shall also at all times have the number assigned to it by the Secretary of State displayed on the back of such automobile in such a manner as to be plainly visible, the number to be in Arabic numerals, each 4 inches in height and also the first three letters of the State name, such letters to be 3 inches in height. Violation of any of the provisions of this act is punishable by fine not exceeding fifty dollars.

Frankfort Times: The invitation which was extended by the local post of the G. A. R. to Rev. W. J. Russell, the new pastor of the Christian church to deliver the Memorial address has been accepted by him. Those who have heard Rev. Russell since he became a member of the Frankfort clergy, have no doubt that the address will be one of rare eloquence and ability.

RUSHVILLE, IND. APRIL 20, 1905.

With public ownership of street railways, the people of Chicago will have no soulless corporation to swear at when the car refuses to stop or the fuse burns out.

The severity of the recent winter is again brought to mind in a New York village, where a man has been sun-struck while shoveling a snow drift from his garden patch.

A large wheat crop for 1905 is promised. The government's report, just made public, shows the condition of winter wheat at the beginning of April to be 91.6, as compared with 76.5 at the same time in 1904, and 83.1 as the average of the past ten years. As the area under cultivation is 31,155,000 acres, as compared with a little less than 27,000,000 in 1904, the chances for a big wheat yield this year are excellent, though much will depend on the amount of spring wheat which is harvested.

Wheat is not the country's greatest grain crop. Corn is the imperial product of the American farm. For the past few years corn has averaged more than twice as high as wheat in aggregate value. As estimated by the department of agriculture, the value of the country's corn crop on the farm on December 1, 1904, was a little over \$1,000,000,000, while that of wheat was \$510,000,000. In most of the recent previous years wheat was farther below corn in market value than it was in 1904. However, the favorable outlook for winter wheat, which far exceeds spring wheat acreage and production, is very pleasing to the country.

In these days of business prosperity it will be especially encouraging to have good crops of the chief products. Last year made a very favorable showing on the country's farms. But the average of industrial activity last year was much below that of 1905.

The country's factories and mines were not so busy then as they are now. Railway traffic was not nearly so great as it is today. Bank clearings were far below present figures. Good crops this year will enable the country to score new "highlights" in general business expansions. In 1904 the product of the country's farms reached an aggregate of about \$5,000,000,000. This was an immense asset in the sum of the country's activities in that year. The great grain and other crops do not form quite such a large part of the people's new wealth as they did twenty years ago, or even ten years ago, but good times on the farm tend to add materially to the country's prosperity.—St. Louis Globe-Democrat.

INTERESTING DECISION

State Supreme Court Hands Down Opinion in Oil Cases

Indianapolis, Ind., April 20.—The supreme court has handed down two decisions of special interest to business men. For the first time it has decided what the term "oil in paying quantity" means. The decision was in the case of H. B. Carrell against the Manhattan Oil company in which the lower court awarded him judgment for damages amounting to \$3,875. According to the lease the company was to drill five wells on his property if oil was found in paying quantity. The company claimed that the first well did not pay enough to warrant it in drilling more and the supreme court held this a proper defense. The supreme court holds that corporations organized under special laws enacted prior to the adoption of the present state constitution in 1852 absolutely ceased to exist when the term for which they were organized expired. The decision was an appeal by the American Cannel Coal company which was organized in 1837 for a term of fifty years. It claimed a right to fire clay deposits in Perry county. The supreme court reversed a judgment of the lower court in its favor holding it ceased to exist in 1887 as a corporation, and therefore could not bring suit as one.

Until the supreme court renders a decision on the constitutionality of the anti-cigarette law it is probable that it will not be generally effective. For instance, Police Judge Whallon

of Indianapolis holds that it does not prohibit smoking or private ownership of cigarettes or the "makings," but on the other hand a number of judges who are also good lawyers are finding men for smoking and for having cigarettes in their possession. The attorney general in the meantime refuses to commit himself fully until the matter comes to him in a regular channel, which means that a decision will be asked from the supreme court. Judge Whallon's position is interesting. He said the penal statutes must be strictly construed and the intention of the statute clearly defined by the act itself. "If it had been intended," he said, "that the law should apply to smokers it would have been very easy to have inserted the words: 'smoking or having in one's possession for smoking.' The two clauses must be read together. The first applies to regularly established dealers and the second to the incidental sales or private sales by individuals. Therefore the law can not on its face, apply to smokers who have cigarettes for their own use." The decision has lifted the bars for the cigarette brigade and it is likely there will be nearly as much smoking as ever on the streets here for the police will be helpless to stop it unless the supreme court decides that the law not only prohibits the sale and manufacturing of cigarettes, but the smoking and private ownership of them. Superintendent Kruger, of the police department, was disappointed over the decision but he expected it. He said it will now be impossible to stop young boys.

Requests continue to pour in on Attorney General Miller for construction of many points in the new municipal code. It seems there are a thousand and one things about it that are not understood. Inquiry from many cities of the fifth class as to whether or not the mayors have the right under the new code to remove regularly elected officers and appoint their successors has resulted in the preparation of an opinion in the attorney general's office to the effect that the regularly elected officers shall be permitted to serve out their terms. At the expiration of the terms of the officials affected by the decision they will be appointed by the mayor and will be directly responsible to him for their actions. The attorney general's opinion was given at the request of City Attorney C. N. Cooper of Columbus, who understood that Mayor McCormack of that city contemplated removing a number of local officials and appointing their successors according to the new municipal code. Answering these queries relative to the code is taking almost the entire time of one deputy.

AWAITING REINFORCEMENTS

Rojestvensky Expecting Early Arrival of Third Squadron.

Tokio, April 20.—Although not reported directly, it is believed that the Russian Pacific squadron continues the occupation of Kamranh bay or some other port of Annam, where it is expected to remain until joined by the third Pacific squadron.

The report that Admiral Rojestvensky is maintaining a patrol and examining neutral shipping off Kamranh bay increases the irritation toward France for permitting the use of that port as a base of operations.

The Japanese government continues silent regarding the representations on this subject which have been made to France. The press, however, continues its agitation against France, demanding vigorous action.

Precautions Taken.

Tien Tsin, April 20.—Few transports are now arriving at New Chwang. This contrast with the rush of traffic since the opening of the Liao river indicates that precautions are being taken against possible interference by the Russian Pacific squadron. Vast accumulations of stores have already been made along the Japanese lines of communication, assuring full supplies to the armies in the field, even if the transport service is interrupted.

Japs Pushing Ahead.

Harbin, April 20.—There are various reports of turning movements at Sitsihar or eastward of that point, but as yet these rumors are apparently unfounded. The vigor of the skirmishes taking place on the east flank of the Russian army, however, seems to indicate that the Japanese are planning to push northeastward and interpose a force between Harbin and Vladivostok.

Tried to Cut Railway.

Harbin, April 20.—There was a determined attempt on the night of April 17 to cut the railroad between Harbin and Vladivostok, a formidable body of Chinese bandits making an attack near the station of Linyanpo, 100 miles east of Harbin. After a desperate fight, which lasted several hours, the bandits were driven off and dispersed.

Japs Take a Town.

Tokio, April 20.—An unofficial report from Manchurian headquarters says: A Japanese force advanced toward Tungshu, fifty miles east of Hsincheng, and occupied that place on April 15. The enemy retreated to the north. There has been no change in the situation elsewhere.

Cause for Alarm.

Shanghai, April 20.—Two junks have been blown up by mines near Chusan. The appearance of mines south of Shanghai is causing great apprehension for the safety of European mail steamers.

THE RESTLESS BALKANS

Signs Point to Further Outbreaks This Spring.

Vienna, April 20.—The condition of affairs in the Balkan states is causing much uneasiness in official circles here. The hope of a comparatively peaceful spring which had previously been expressed is growing less, and it is declared that the reform work has now been proved conclusively without good or lasting results. In Zagoricham, province of Koritsu, early this month Greeks fell upon and killed more than 130 Bulgarians, and in Kumanovo, province of Uskub, Turks have killed several Servians. Thus it is seen that all nationalities and Christians and Mohammedans continue fighting each other, while Turkey seems unable or not desirous of affording protection to the people and stopping the disorders. Formerly there was only the passive resistance of Turkey to contend with, but now the situation has been aggravated by the growing bitter and passionate hatred of the various nationalities against each other, and there is a possibility that some one of the Balkan states might actively enter the field under the pretense of protecting its subjects.

Drug Victim's Strange Crime.

Cincinnati, April 20.—Charles Finch was arrested last evening, charged with throwing Loretta Krekeler, aged nine years, from the Liberty street viaduct to the ground below, a distance of eighty-three feet. The girl is in a serious condition and expected to die at any moment. Finch was identified by both the girl and her six-year-old brother, who was a witness to the crime. When arrested Finch was stupefied with cocaine, and a large box of the drug was found in his pocket.

Finds His Own Tombstone.

Columbus, O., April 20.—Attorney General Critchfield has received a letter from Joseph Nahafey, who served in company "A," Ohio Volunteer Infantry during the civil war, saying he has just returned to Mount Vernon, O., after an absence of thirty years to find a government tombstone marking his supposed grave. Nahafey seeks information concerning the person buried under his name, but the adjutant general's department is unable to enlighten him.

Young Woman Cruelly Murdered.

London, Ont., April 20.—Miss Eliza Lowery of Rodney was brutally murdered at her home by a heavily masked man supposed to be a tramp, who called at the house and demanded money. When he was refused he seized Miss Lowery and dragged her into the yard, where he beat her to death with a club. Farmers in every part of the country are aiding the police in the search for the murderer, and threats of lynching are heard.

Hoch on Trial for Murder.

Chicago, April 20.—Johann Hoch, self-confessed bigamist, is on trial in the criminal court for the murder of Mrs. Marie Walcker Hoch, one of his wives. Mrs. Amelia Fischer Hoch, the defendant's last wife, and sister of Mrs. Marie Walcker Hoch, will be one of the principal witnesses for the state. Mrs. Fischer Hoch declares she saw Hoch give some white powder to her sister just before the sister's death.

Boodle Trial Begins.

Sacramento, Cal., April 20.—The taking of testimony in the case of Harry Bunkers, the deposed state senator, who was indicted for alleged bribery, has commenced in the superior court. The trial will probably occupy a week or ten days.

Joe Jefferson Rallies.

West Palm Beach, Fla., April 20.—A change for the better in the condition of Joseph Jefferson is so encouraging to the physicians and the family as to lead to the hope of ultimate recovery.

Suicide at Martinsville.

Martinsville, Ind., April 20.—Robert Davis, foreman of the Adams brick plant, this city, committed suicide by taking carbolic acid.

WANT RESIGNATION
General Agents of Equitable Society Ask Hyde to Get Out.
"NOT ON YOUR LIFE"
Says He, or Words to That Effect, When Informed of the Action of the Agents Convention.
Vice President of Disturbed Society Says the Demand is Impertinent and Insulting.
New York, April 20.—After a protracted session behind closed doors, the 200 or more general agents of the Equitable Life Assurance Society adopted a resolution calling upon Vice President James H. Hyde to resign from his position with the organization and appointing a committee of five from their number to call on Mr. Hyde and present the demands. All the members have bound themselves to secrecy by a vote of the body, and while no definite information

as to this committee's whereabouts has been given out, it is the general opinion that it will report at once. Current talk had it that the resolution had been mailed to Mr. Hyde with comments, but this was not officially confirmed. This resolution the secretaries of the agents will not give out until notified by the committee of five that a copy has been served on Mr. Hyde. When Mr. Hyde was informed of the action of the agents he said: "I have not seen the committee, and I have not seen the resolutions, but I consider them impertinent, extraordinary, insulting and most preposterous. I have no intention of resigning." The agents also formed a permanent organization and a committee was elected to go to Albany to petition the insurance commissioner and Governor Higgins to urge the mutualization of the Equitable.

He Wants an Accounting.
New Orleans, April 20.—Edgar M. Cahn, an attorney, has filed suit in the civil courts here on behalf of himself and other policy holders of the Equitable Life Assurance Society of the United States asking for a receivership under the Louisiana law and for accounting of the company's affairs, in view of the New York situation. The petition represents that the company has large interests here.
RESIGNATIONS DEMANDED
Trouble in Pension Department Now a "Closed Incident."
Washington, April 20.—Nine of the ten pension examiners constituting the board of review have been separated from the government service. Commissioner of Pensions Warner transmitted the nine resignations to Secretary Hitchcock with the recommendation that they be accepted and Mr. Hitchcock took the desired action without delay. Both the secretary and the commissioner declare that the incident is closed. This, however, is not in accordance with the claim of the resigned examiners who assert that representation was made to them purporting to come from the commissioner, that should they hand in their resignations, matters would be relieved and restorations would be made at some date in the near future. Commissioner Warner, however, made no such representation to the secretary of the interior, stating to the secretary that the resignations were tendered unconditionally and their acceptance meant absolute separation from the service. The difficulty involving the board of review was its approval of several pensions to applicants whose only claim was enlistment in a Pennsylvania and New Jersey regiment of volunteers for service in the civil war but whose services were never availed of by the government.
Secretary Hay Well Again.
Nervi, Italy, April 20.—Secretary of State Hay's physicians report that Mr. Hay has recovered his health.

Be sure that the printed matter on the sack reads, "Purity, High Patent", or "Indiana Pride, Straight Patent", made by C. G. Clark & Sons, and you will have the best that machinery, good wheat and a life time experience can make. Ask your grocer for it and do not take a substitute, they may tell you it is as good but they are mistaken. For sale by all leading grocers of Rushville and Rush County.

The Connersville Examiner in speaking off the graduating exercises held at Harrison, Fayette county, says in part: Trustee Whipple had employed Hon. James E. Watson to make the class address, but as Mr. Watson was unable to fill the engagement, Rev. V. W. Tevis, was the principal speaker of the evening. His theme was "Success in Life." If a man would succeed in any line he must be thoroughly prepared. Every person has the opportunity to prepare. Poverty is no excuse for not going to college. Many of the greatest men have had to make their own way. Another necessary thing is to select a business that is pleasing. Every one enjoys some kind of work, so if a young man finds his proper place he will be happy and be sure to accomplish his purpose in life. Mr. Tevis also believes in keeping in touch with the life all about us. Love nature, childhood and society.

SOCIETY NEWS

Robert Hutchinson, of Arlington, and Miss Mary Evans, of Indianapolis, were united in marriage this morning at Indianapolis. Miss Manzy was presented a framed photograph of the hostess. The guests from out-of-town were Mrs. Z. E. Manzy, of Rushville, and Mrs. Nathan Crawford, of Greensburg.

DEATHS

Mrs. Minnie Charman, of Markleville, Ind., died Wednesday evening at 4 o'clock of consumption at her home in that city. She was twenty-eight years of age and was a daughter of W. J. Bebout, formerly of this city and a sister of Maury Bebout, of Noble township. Mrs. Charman had been ill about two years. She was cheerful, however, all through her illness. She leaves four little girls of ages ranging from 4 to 8 years. Her husband died about four years ago. The body will be brought to this city over the Big Four Friday morning at 8:13, and will be taken at once to the chapel at East Hill cemetery, where short funeral services will be held, conducted by Rev. W. W. Sniff, pastor of the Main Street Christian church. The interment will take place at East Hill.

A campaign of advertising may be inaugurated in the "Want Adlet" column on the second page of this paper on a capital consisting of "loose change." And since the charge for this service is so small that it does not pay to make a book account, the cash should accompany the advertisement.

KEEP AWAY FROM THE KITCHEN.

THIS MEANS YOU

Don't wear yourself out with needless work—don't spend the best hours of the day in a hot kitchen. Let our automatic servant make your work easier—cut your hours of kitchen labor in two. This tireless servant,

THE HOOSIER KITCHEN CABINET

is the most competent housekeeper's helper you have ever known.

It groups every thing you need in preparing a meal—each article in its own special place—all within easy reach. It saves countless wearing footsteps from sink to pantry—from pantry to range—from range to kitchen table.

This servant doesn't let you run out of sugar—flour or anything else you need every time you cook.

Hoosier cabinets take the place of a pantry—are far more convenient—because the supplies are all in one place. The large cupboards—the roomy drawers hold everything a pantry will.

The Hoosier Kitchen Cabinet has labor-saving and "supply-saving" devices no other kitchen cabinet possesses. A patent sugar-bin—insect-proof; a special sanitary flour bin—self-cleaning; Hoosier air-tight spice tins that preserve the flavor of the spices.

Every Hoosier Cabinet is made of solid oak—construction, workmanship and finish as fine as the furniture in your dining-room. The panels are built up—not the ordinary one-ply kind that warp and split in the heat of the kitchen.

There is no use paying more than the Hoosier price for kitchen cabinets, because the Hoosier is the best in construction—the most practical—the most convenient.

You can buy a Hoosier on weekly installments—a small sum down—and \$1.00 per week until the cabinet is paid for. Hoosier Kitchen Cabinet is an investment—not an expense. It pays for itself in a short time in the waste it saves—in the leisure hours and rest it gives its owner. Don't put off doing away with kitchen drudgery a single day.
